

RideKC Employer Pass Program

A convenient and affordable way for employees to get to work

Employers can help save their employees at least \$10 off the price of a 31-day bus pass that can be used on more than 80 bus routes across the region, whether it's Missouri or Kansas. RideKC offers a \$5 discount per bus pass when participating businesses contribute at least \$5 toward the cost of that pass.

This special discount benefits businesses and employees alike. Here's how:

FOR EMPLOYERS

Save taxes: Contributions toward the cost of a bus pass are tax deductible.

Recruiting: Looking to gain an edge in hiring? Give employees a little extra to help cover the cost of their daily commute.

Build morale: Offer a new benefit that not only saves employees' money but gives them a reliable and stress-free way of getting to work.

Reduce parking costs: Promoting public transportation can help companies with limited room for parking and cut down on the cost of providing a place to park.

FOR EMPLOYEES

Cut commuting costs: Don't have to gas up a car regularly. Reduces vehicle wear.

Saves time and money in parking: No more wasting time hunting for an expensive parking spot.

Tax savings: Commuters can pay for their pass with a pre-tax deduction.

Emergency rides home: Need to leave work immediately? A program offered by the Mid-America Regional Council provides two free taxi rides home per year in the case of an emergency.
