

RideKC Transit Key Performance Indicators

July 2023

Report Submitted August 17, 2023

About this Report

This report contains information about transit service operated by the Kansas City Area Transportation Authority contracted by the City of Kansas City, Missouri. Key Performance Indicators (KPIs) outlined in the contract between KCATA and KCMO are shown here, while detailed metrics can be found on the following pages of this dashboard.

*When Ridership, Efficiency, and Reliability pages are filtered by community, data displayed represents entire route.

Vehicle Incidents

Glossary of Terms

- Collisions:** Any incident where a bus runs into another vehicle or fixed object (includes property damage only collisions).
- Flex Route:** A route that operates within a service area during certain times, but takes different routes based on rider requests.
- Fixed Route:** A bus that operates on a pre-determined route and schedule.
- KPI:** Key Performance Indicator; a metric used to measure progress against goals.

- Platform Hours:** The total time it takes for drivers to operate revenue service, spend time in a layover, or travel to and from a maintenance facility.
- Revenue Service:** The time when a vehicle is available to the general public and there is an expectation of carrying passengers.
- Road Calls:** A maintenance response to a transit agency vehicle.
- Trips vs. Passengers (Paratransit):** A trip is a journey from one point to another that can have one or more passengers.
- Vehicle Incidents:** Any time a vehicle comes in contact with a fixed object or moving vehicle.

See the [NTD Glossary](#) for more definitions.

Ridership

Ridership measures the number of people boarding each individual route, as counted by Automatic Passenger Counters (APCs) stationed at the doors of transit vehicles. Ridership is measured in Unlinked Passenger Trips, meaning a single passenger transferring to another route would be counted for both boardings. See the [NTD Glossary](#) for more definitions.

Monthly Ridership

Ridership Change - Year over Year

Service

Fixed and Flex Route Service is measured in the number of **Revenue Hours**, or time a transit vehicle is in revenue service (carrying passengers). Time spent on a layover (waiting to start a new trip), or deadheading (driving between the vehicle maintenance facility and the beginning or end of a route) is not included.

In July 2023 this page began reporting revenue hours instead of platform hours.

Revenue Hours

Revenue Hours Change - Year over Year

Efficiency

Efficiency can be best understood as the cost per unlinked passenger trip. Costs are determined by multiplying the average cost of service per hour by the number of vehicle revenue hours. **Cost per Rider** is determined by dividing the direct cost of service by the number of Unlinked Passenger Trips. See the [NTD Glossary](#) for more definitions.

Reliability

On-Time Performance (OTP) measures the percentage of vehicle departures from time points established for each route. On-Time is defined as departures that are no more than 2 minutes early or 10 minutes late. OTP is measured by using on-board and stationary communications equipment. **Trip completion** is the percentage of scheduled trips that were actually completed. See the [NTD Glossary](#) for more definitions.

In July 2023 On Time Performance criteria were changed to better reflect our community and union agreements. Past data will be updated to keep consistency. OTP for 47 Broadway and 75 75th Street has been omitted for the month of July due to ongoing construction along these routes.

On-Time Performance Change - Year over Year

IRIS

IRIS is an app-based, on-demand service provided by Kansas City, MO, in partnership with the Kansas City Area Transportation Authority, zTrip, and RideCo.

IRIS offers 24/7 service. Fares range from \$3-\$10. This service provides increased connectivity for residents to fill in gaps where a bus stop or other transportation service may not be as accessible.

The map below displays the IRIS service area. As of July 2023, the IRIS service area has expanded to include all of Kansas City, MO. Anyone within the service area boundaries can summon a ride using the IRIS mobile app.
