Types of RideKC Freedom Services

RideKC Freedom provides two primary types of service for customers who qualify, as described below.

- **ADA Paratransit** is accessible transportation for people who are unable to fully access the RideKC fixed-route bus system or Kansas City streetcar because of their disability. This service meets the requirements of the Americans with Disabilities Act of 1990 (ADA).

  Customers travel from any origin or destination within 3/4-mile of a fixed-route bus or streetcar during the same days and hours as fixed-route buses and the streetcar. A customer is not required to live within the service area, however, the pick-up and drop-off addresses must be in the service area. ADA service requires scheduling at least one day in advance.

- **Non-ADA Demand Response** is service for older adults and persons with disabilities within Kansas City metropolitan area - including Johnson and Wyandotte Counties in Kansas - that go beyond the ¾-mile around the fixed-route and streetcar services. The service areas and hours differ by region and program (See the *How-to-Ride* booklet). Non-ADA Demand Response service is offered through RideKC Freedom On-Demand.

- **Johnson County, KS** also offers a reduced fare, income-based program that is described at the end of this booklet.

ADA Eligibility Requirements

Eligibility for ADA service is based on a person’s inability to use our fixed-route bus system or streetcar because of a disability. ADA regulations define three categories of eligibility:

Category 1 (Section 37.123(e) (1) of the ADA Regulations):

“Any individual with a disability who is unable, as a result of a physical or mental impairment (including a vision impairment), and without the assistance of another individual (except the operator of a wheelchair lift or other boarding assistance device), to board, ride or disembark from any vehicle on the system which is readily accessible to and usable by individuals with disabilities.”

- This category is for those persons who are unable to use fully accessible fixed-route bus services and includes those individuals who cannot independently navigate the fixed-route bus system.
**Category 2** (Section 37.123(e) (2) of the ADA Regulations): “Any individual with a disability who...is able...to board, ride and disembark from any vehicle which is readily accessible...if such a vehicle is not being used to provide designated public transportation on the route.”

- This category applies to any person who would be able to use the fixed-route bus and/or streetcar systems if they are accessible (a low floor, a lift, etc.). This category is not required once a transit system is 100% accessible. All RideKC fixed-route buses and streetcars are accessible with either low floors, ramps and kneeling capabilities.

**Category 3** (Section 37.123(3) (3) of the ADA Regulations): “Any individual with a disability who has a specific impairment-related condition which prevents such individual from traveling to a boarding location or from a disembarking location on such system.”

- This category applies to a person who, because of his/her disability, cannot access a particular bus or streetcar stop to board at either his/her origin or destination. In these cases, eligibility would be determined just for these stops.
Ineligible Condition

The following conditions, when they are considered by themselves, do not form a basis for eligibility:

- An environmental condition or architectural barrier, not under control of a public entity
- A condition which makes traveling to a boarding location, or from an existing location, more difficult but doesn’t prevent travel

Eligibility: Different Types

Types of ADA Eligibility

Based on an assessment of an individual’s needs and circumstances, applicants may qualify for any one of the following types of eligibility:

- Temporary Eligibility – full or conditional access to the service for the expected time of the temporary disability
- Conditional Eligibility – access to the service for up to three (3) years only when conditions exist that affect a person’s ability to use the fixed-route system – determined during the eligibility process. Conditional eligibility may be approved based on some, but not limited to, the following situations: weather conditions, specific origins or destinations, time of day, etc.
